

Vidyo on Client Device

1. Client will receive your email or text with the instructions for joining the call.
2. Client will download the app based on their device after clicking on the link to join the call for the first time. The app icon is below.

3. Once the Client installs the app, they will return to the email invite and click the link, then choose to open using VidyoConnect.
 - a. In some instances, they may be able to join straight from the browser but that is device and browser specific.

That is all there is to it for clients.
